Company Profile:

Friends 91.9 FM launched on February 28, 2007 with the promise of offering Kolkata a differentiated radio station for their listening pleasure. Based on the adult contemporary format and playing music to take its listeners back to the days of their youth, the station promises to make you relive moments with it as the friend you always had.

The RJ's on the station are easy going and the maturity they demonstrate instills listeners to bear their souls to them in conversation. Each RJ's personality endears him/her to listeners and entrench them in the daily lives of the people of Kolkata. Add to this a host of celebrity hosted shows and unique interactive programs, Friends 91.9 FM have emerged as a channel that engages its audiences in pure entertainment.
